ISSN 0163-7304 Key title: Catalog of copyright entries. Fourth Series. Part 2. Serials and periodicals.
For sale by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

preface

The *Catalog of Copyright Entries* for 1978 begins a new series. Published by authority of section 707 of Title 17 of the *United States Code*, this new Fourth Series coincides with the implementation of the Copyright Act of 1976 (Public Law 94-553).

The *Catalog* is divided into eight parts. Five of these parts correspond to the administrative classes established under section 408(c) of Title 17 of the *United States Code*. Three additional parts consist of categories of works within these classes: maps, motion pictures/filmstrips, and serials/periodicals. The table at the end of this preface shows the organization of the *Catalog* and the registration class designators. The parts of the *Catalog* in which each entry is published are determined, in some cases, by both the registration class and the nature of the work covered by the registration. Some issues, therefore, will contain entries for registrations in classes in addition to those designated in the table.

All works listed in the *Catalog* are entered under title, with an index of authors, claimants, and other names associated with the work. Filing is word by word. Titles which consist only of special characters are at the head of the *Catalog*, followed by titles beginning with Arabic numerals filed in numerical sequence. Each entry includes a bibliographic description followed by data relating to the copyright claim (name of the copyright claimant as given in the application for registration, date of creation, date of registration, copyright registration number, etc.). Except for renewals and supplementary registrations, the descriptive portion of the entries is formulated in a modified ISBD (International Standard Bibliographic Description) format. Some deviations from the prescribed format were necessary to better meet the needs of the Copyright Office.

Entries for published and unpublished material are interfiled. Entries for supplementary registrations are interfiled with entries for basic registrations, and should be consulted in conjunction with the entry for the original registration. Entries pertaining to original copyrights secured before January 1, 1978 but not registered until on or after January 1, 1978 are interfiled with entries pertaining to original copyrights secured under Public Law 94-553. Entries appearing in the *Catalog* for the first time which pertain to pre-1978 registrations are filed and indexed in a separate section at the end of the *Catalog*.

Information pertaining to changes of copyright ownership is not included in the *Catalog*, but a search of Copyright Office files may be requested from the Register of Copyrights. A fee for the search and report will be estimated at the statutory rate of $10 per hour.

For each registration listed, except for renewals and supplementary registrations, there has been deposited one or two copies or phonorecords (or in some instances other identifying material) of the work in accordance with the provisions contained in section 408 of Title 17 of the *United States Code*. Such deposits may be selected for inclusion in the collections of the Library of Congress. Library of Congress printed cards are available for many of the published works so selected. Orders for such cards or inquiries concerning them should be addressed to the Cataloging Distribution Service Division, Building 159, Navy Yard Annex, Washington, D.C. 20541.

For a more complete description of the contents of this issue of the *Catalog* see the Introduction.

Orders for individual issues, subscriptions for one or more parts, or for the complete *Catalog*, should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The Copyright Office welcomes inquiries, suggestions, and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington, D.C. 20559.

Administrative Classification System

Class TX:
Nondramatic Literary Works

Class PA:
Works of the Performing Arts

Class VA:
Works of the Visual Arts

Class SR:
Sound Recordings

Class RE:
Renewal Registration

Unpublished works are identified by a small "u" following the double letters in all classes except RE (e.g., TXu 1-617).

Organization of Parts

1 **Nondramatic Literary Works**
Class TX, excluding serials and periodicals

2 **Serials and Periodicals**
Class TX

3 **Performing Arts**
Class PA, excluding motion pictures and filmstrips (includes musical works, dramatic works, pantomimes, and choreographic works)

4 **Motion Pictures and Filmstrips**
Class PA

5 **Visual Arts**
Class VA, excluding cartographic materials (includes all other pictorial, graphic, and sculptural works)

6 **Maps**
Class VA

7 **Sound Recordings**
Class SR

8 **Renewals**
Class RE

1 Current Registrations

745 Index

905 Pre-1978 Registrations (with Index)

907 Abbreviations and Symbols

Part 2 lists serials and periodicals registered in class TX for the period covered by this issue. The works listed include popular and scholarly journals, newspapers, adventure and comic periodicals, conference proceedings, transactions of societies, annuals (such as reports and yearbooks), and some monographic series.

Basic Registrations

Each issue registered is recorded under the title proper of the serial or periodical. References are made from variant titles, from titles of specific issues, and from other titles associated with the publication. With the exception of newspapers, each main entry includes the items of information listed below, if available and applicable. Major areas of bibliographic information ending with the ISSN (International Standard Serial Number) are separated by paragraphing and by period-space-dash-space within paragraphs. Individual elements within these areas are separated by prescribed ISBD (International Standard Bibliographic Description) punctuation as indicated below. Newspapers are given a condensed cataloging treatment which does not include ISBD punctuation and authorship and imprint information.

Bibliographic Description and Copyright Facts

1. Title proper : other titles : other title information / statement(s) of authorship.
2. Edition statement / statement(s) of authorship for the edition.
3. Place of publication : publisher.
4. (Series ; numbering within the series : subseries ; numbering within the subseries)
5. Notes. Information is given here which serves to supplement the data that is given elsewhere in the entry in order to describe a work more accurately or identify it more explicitly, including information related to frequency of publication, changes in title, relationship to other serials, etc.
6. International Standard Serial Number or International Standard Book Number.
7. Names of authors or titles given in the application which do not appear elsewhere in the entry.
8. Indication that an author's contribution to the work is anonymous, if so stated in the application.
9. Name of the employer in the case of a work made for hire, if so named in the application.
10. Brief statement of preexisting material identified in the application, if not indicated elsewhere in the entry.
11. Brief statement of the new matter on which copyright is claimed, preceded by the abbreviation NM, if this information is given in the application and is not indicated elsewhere in the entry.

12. Copyright symbol ©.
13. Name of the copyright claimant.
14. Volume number.
15. Issue number, issue date, or issue title, and other information pertaining only to the particular issue.
16. Year date of creation, preceded by the abbreviation DCR.
17. Date of publication, preceded by the abbreviation PUB.
18. Effective date of registration, preceded by the abbreviation REG.
19. Registration number.

Whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application is given first, followed by the phrase "in notice" and the data given on the work; e.g., PUB 10Jan78 (in notice: 1977). For works published before January 1, 1978, all major variances are reflected in the entry. For works published on or after January 1, 1978, variant or different names appearing in the notice are included for bibliographic purposes only if the name or name variant in the notice has not been entered elsewhere in the entry, and year dates appearing in the notice are given only if the latest year date in the notice is earlier than the date of publication given in the application.

Supplementary Registrations

Supplementary registrations are interfiled with basic registrations under the title proper of the serial or periodical. Each entry for a supplementary registration includes the following additional items of information, if available and applicable.

1. Statement that the entry is for a supplementary registration, followed by the basic registration number and year date of registration.
2. Identification of corrected or amplified information which is not included in the catalog entry (i.e., address, citizenship, etc.).
3. Corrected/amplified information followed by the related information as it appeared in the basic registration, if the original information is included in the application for supplementary registration.
4. Effective date of supplementary registration, preceded by the abbreviation REG.
5. Supplementary registration number.

Contributors

The following individuals were primary contributors to cataloging or editing of entries appearing in this issue of the *Catalog of Copyright Entries.*
